

GE Oil & Gas

Visit the future, today

At GE's new Technology Solutions Center
Sothammargeilen 3, Dusavik, Stavanger

Tour GE's new Technology Solutions Center (TSC) for oil and gas in Dusavik.

- Sothammargeilen 3, Dusavik, Stavanger
- Coaches leave ONS twice daily
- Sign up at the GE booth, Hall D #454

From top to bottom, the TSC is designed to give visitors deeper insight into how technologies from 14 GE businesses provide advantages to oil and gas operators around the world. The facility features a combination of interactive video content, scale models and live demonstrations — presenting an exciting mix of current solutions and future technologies. Highlights include the Industrial Internet area showcasing GE's latest Predictivity™ and Remote Monitoring & Diagnostic solutions, as well as demonstrations on how we are taking the Industrial Internet to a whole new level.
